

Tommy is upset because he cannot go out and support his favorite political party due to his Asthma. With Covid-19 he cannot risk going to the polls and getting sick.

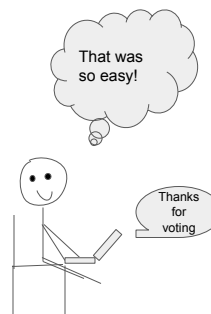

He decides to call his friend Tatum who had Type 1 Diabetes to see if she has heard of any way around going to the polls.

BY: Austin Nagel

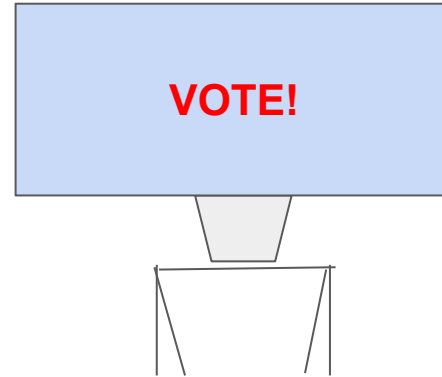

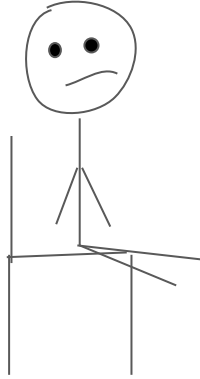

Tommy uses his laptop to google this online voting app and realizes that it is really easy to use and reminds him alot of a normal ballot he would see at the polls. He also sees that there are blogs where he can talk about his favorite politicians with other users.

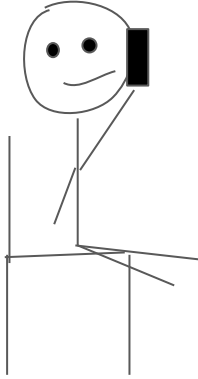

Covid-19 has changed everyone's lives. Some of us with underlying health conditions cannot just go to the polls like we originally have. This app allows those to vote safely in the privacy of their own homes.

How can
we safety
vote?

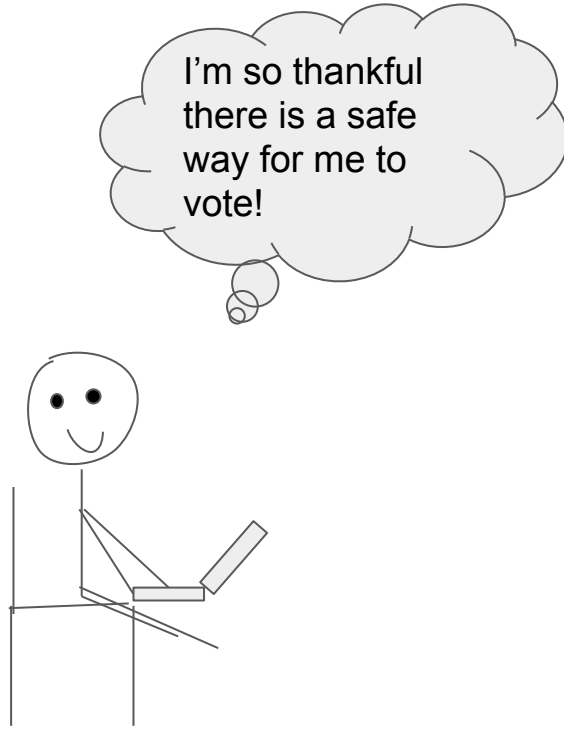

I heard that
we can vote
online which is
safe for both
of us!

Shinji moved to New York from Japan after he graduated culinary school, and just got his citizenship. He's excited to vote in 2020!

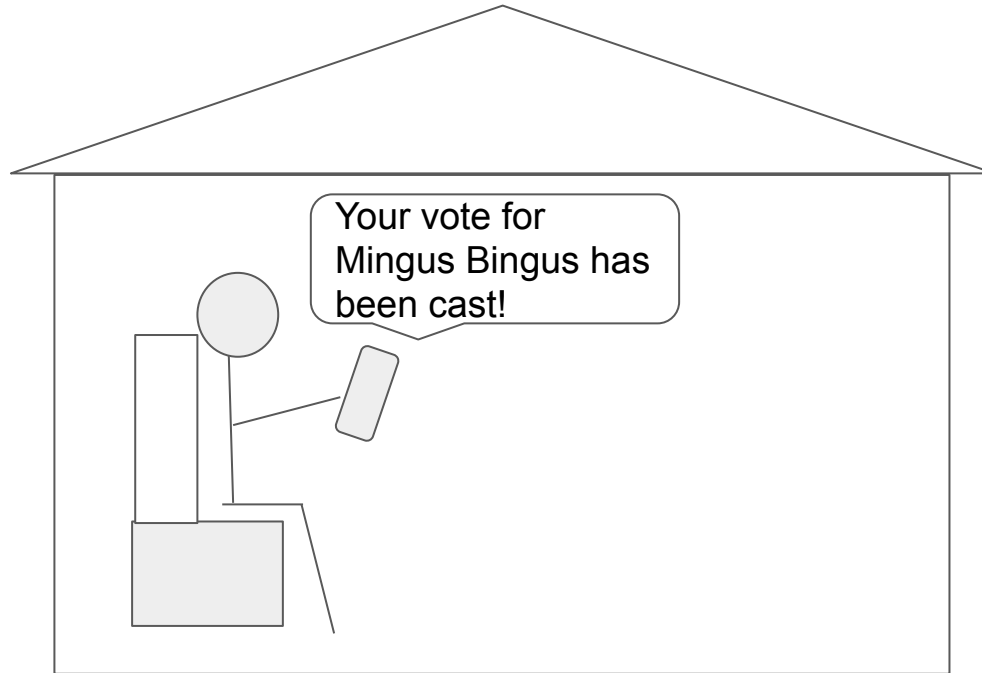

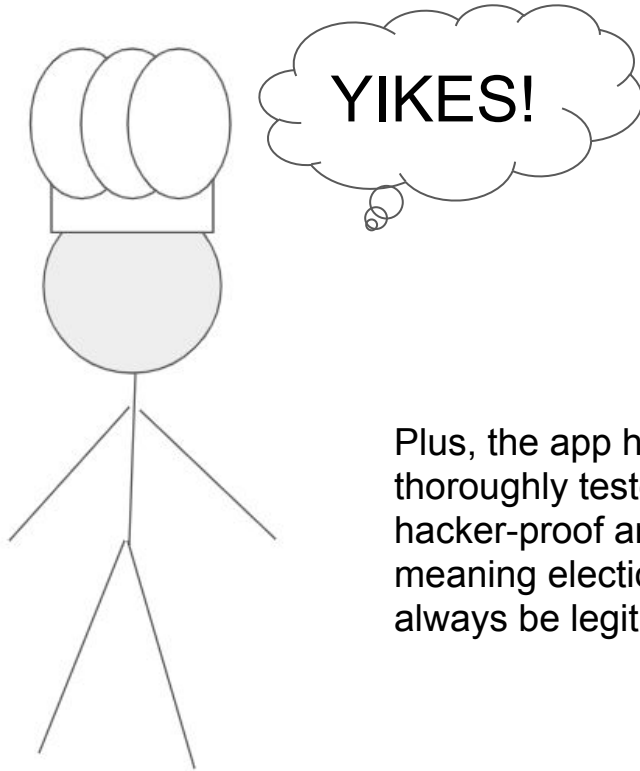

However, he worries that he'll catch COVID-19 if he stands in a crowded polling station.

Fear not, Shinji!

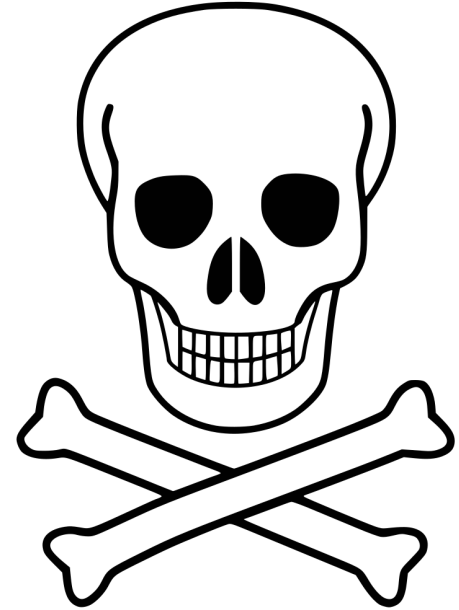

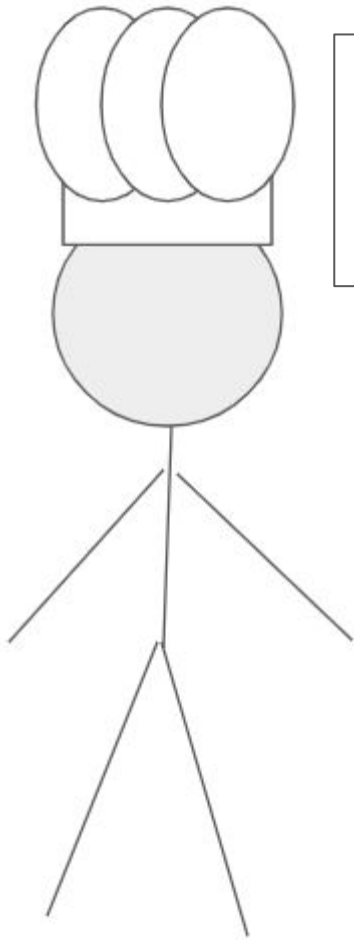

Our new app allows people like Shinji to easily register to vote and cast his ballot in any election without having to even get up from his seat!

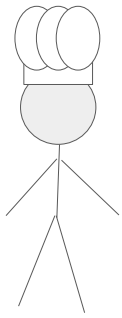

Plus, the app has been thoroughly tested to be hacker-proof and fraud-proof, meaning election results will always be legitimate!

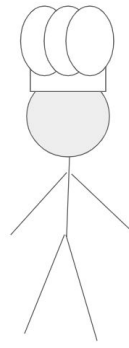

Gee, thanks US government!

As we can see, this simple, no-strings-attached method of voting makes voting safer and easier for people like Shinji than ever before.

Tracy is a human resources assistant. She would like to vote this upcoming election but not sure how to do it safely.

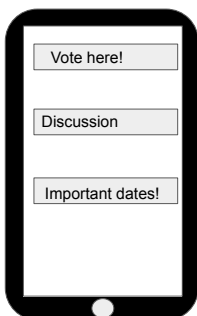

Tracy tried to ask her co-worker but they can't give her clear instructions on how to vote safely and quickly.

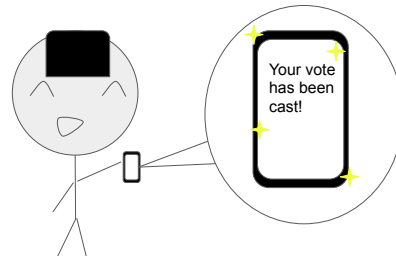

That's when Tracy tried Google. It was just too complicated. Just wall of texts. She wanted something safe and simple.

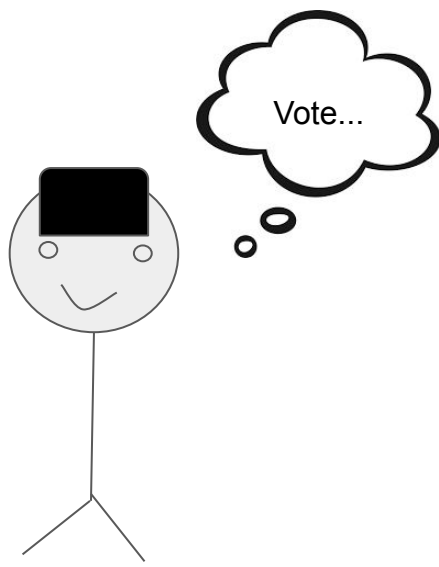

That's when Tracy came across the voting app through social media on her phone that met all her needs.

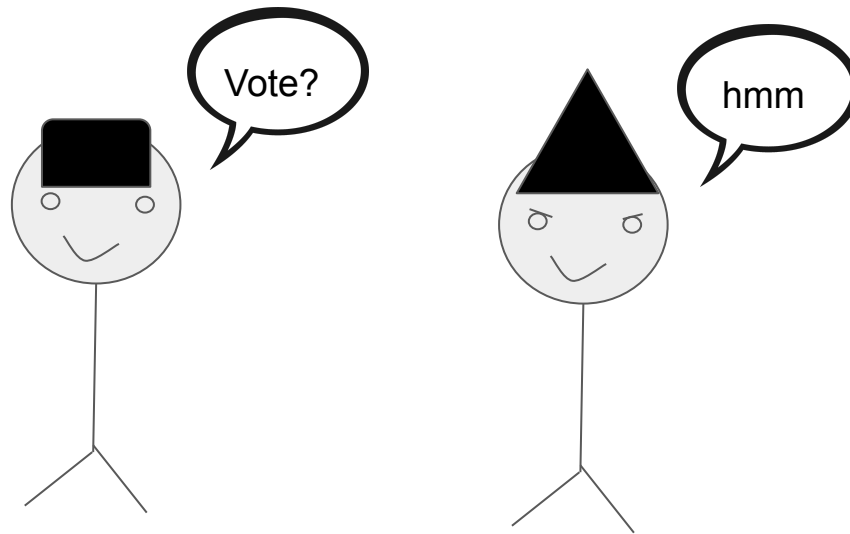

The app got easy vote button, allows her to discuss it with other people and reminds me of important dates!

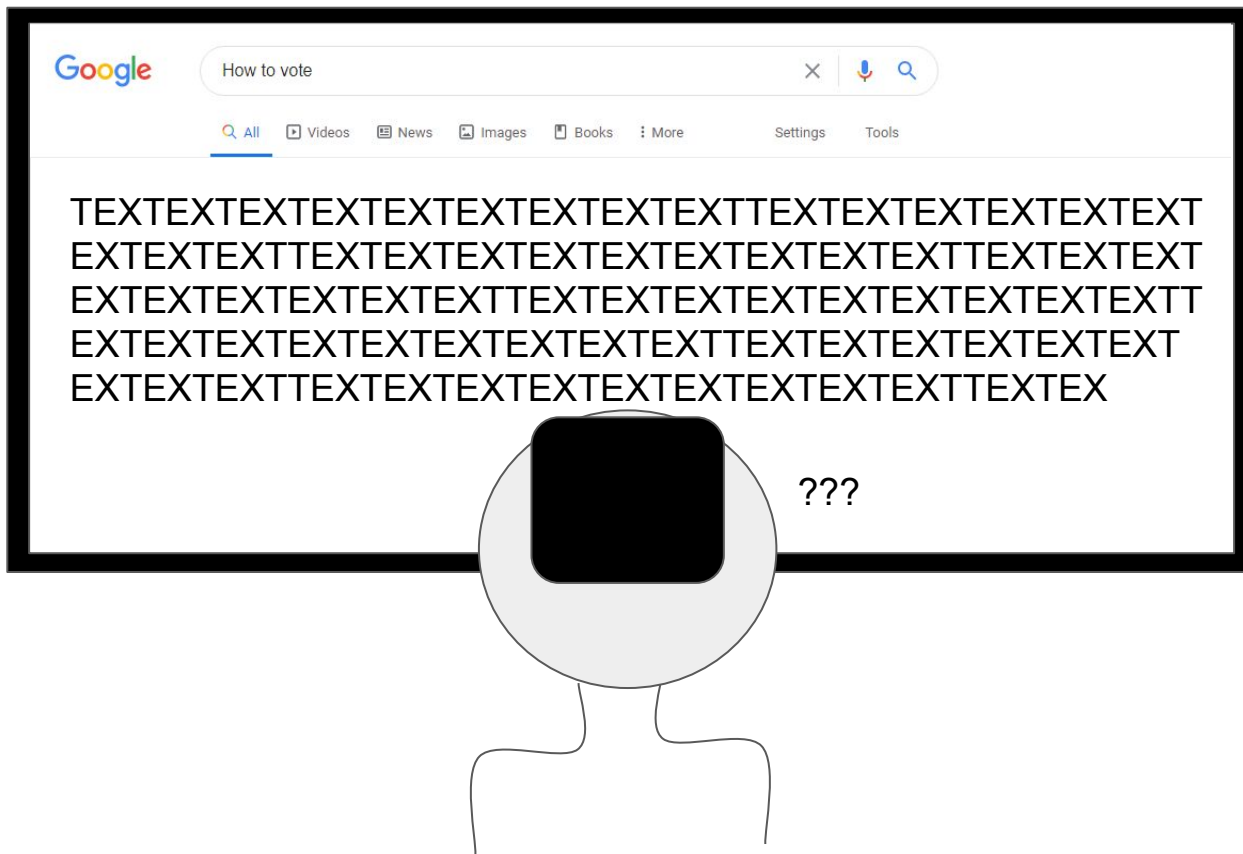

Tracy is now happy because she got to vote quickly and safely through her phone without any hassle.

George Montey is up late grading papers, the night before election day

He sleeps in to find that he has a meeting and has no time to get to a ballet like he thought he would

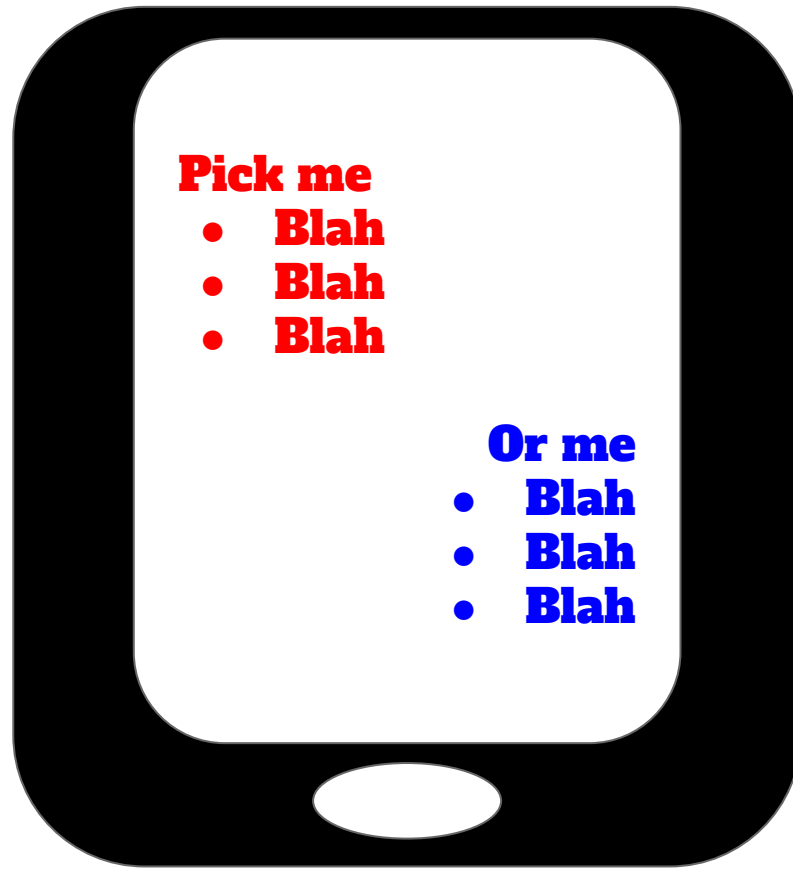

George looks up his options and finds an accessible app he can use to vote online

Do I like
blubscorp or
lambchorp?
hmmmmmmm
mm

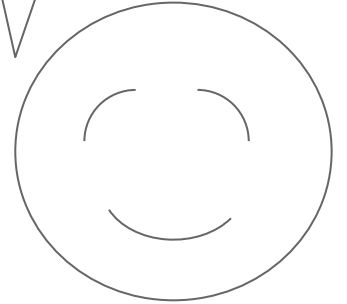

He downloads the app, and is still unsure who to vote for

He uses the in app information to find his desired candidate

That was easy!

He votes on time and is able to get to his meeting, Simple and easy.
